

HIGH SCHOOL INTEGRATION PROGRAMME - EXETER COLLEGE

The Anglo High School Integration Programme offers the perfect way to get a taste of being a student and living in the UK, and is especially useful as a "taster" for anyone considering spending more time in education here. Students spend 2, 3 or 4 weeks staying with an English family and attending a local school or college, and return home with improved English language skills, increased self-confidence and better equipped to make informed decisions about their future.

EXETER COLLEGE

Exeter College is a thriving college in the South West of England and situated just a few minutes from the city centre of Exeter. The college has an Ofsted rating of outstanding, offers a wide range of courses in attractive modern facilities and provides a safe and supportive environment for learning and growth. International students receive English Language support and are actively encouraged to improve their language skills.

STUDY PROGRAMME

Anglo students join the English Plus Programme - a fully integrated experience, which gives you the opportunity to study English as a Foreign Language and a choice of academic or vocational subjects. It's an ideal way to improve your English whilst also getting the chance to learn alongside British students.

Students have 6 hours of conversational English with other international students and study up to 3 A-Level/ BTECS subjects in classes with students from the UK. There is also the possibility to attend Academic Support Classes. Students have access to all school facilities and can also pay a small supplement to join in with the school's weekend activity programme to complete this experience of British culture and lifestyle.

OUR HOST FAMILIES

All our families have experience in hosting students from other countries and are able to integrate young people into their family and home in a professional and friendly manner. Anglo head office is in constant communication with students and families and there is a 24-hour emergency phone to offer help and support. Most families are within 30-minutes travel time from the college.
