

SUMMER 2021

ENGLISH LANGUAGE AND LEISURE PROGRAMMES

WELCOME TO MALIBU + LAS VEGAS

Our Malibu centre is based at Pepperdine University, overlooking the legendary coastal village of Malibu and its beautiful beaches and with the city of Angels, Los Angeles , just a few miles away along the famous Pacific Coast Highway.

THE PROGRAMME

Our language and leisure programme has been designed to give you an integrated learning experience. Each day is made up of a combination of engaging classroom-based English language lessons, friendly team sports, activities and excursions. All this gives you the opportunity to acquire new language and practice your communication skills with English-speakers. Please see the centre timetable for the daily schedule.

LEARNING & CULTURE

ACCOMMODATION

Triple and double study bedrooms with shared bathrooms

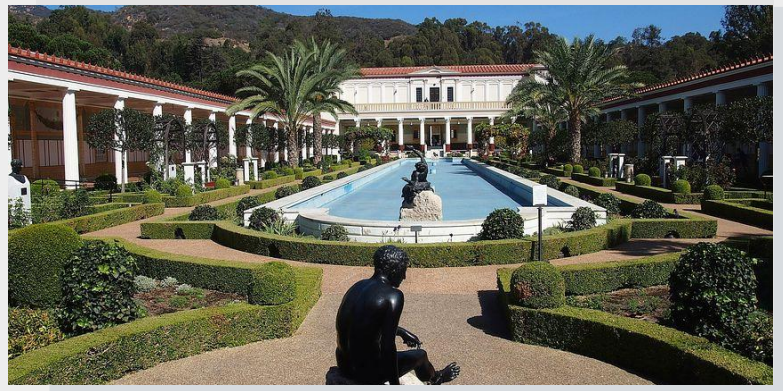

CATERING

3 meals a day served in a modern dining area. Packed lunch on weekend excursions

10 NIGHTS IN MALIBU + 3 NIGHTS IN LAS VEGAS

We aim to localise our leisure programme as much as possible to give students the chance to explore the culture and history on their doorstep.

Our **Malibu** centre is the perfect base for exploring both the stunning **coastline** and the exciting cities of Southern California. **Malibu** itself is really only a small village, but its privileged location just a few metres from the **Pacific Ocean** and stretches of sandy beach has made it a favourite beauty spot for locals and tourists. You might recognise the **wooden pier** as it has featured in quite a few famous movies!

The Anglo programme includes **half-day** and **full-day** trips to the **Getty Villa** in Malibu, **Downtown Los Angeles, Beverley Hills and Rodeo Drive, the Griffith Observatory, Santa Monica and San Diego.**

After 10 nights in **Malibu**, you travel by private coach to **Las Vegas** for 3 nights in the city of lights! From **Las Vegas**, you will enjoy full-day trips to **Hoover Dam, the Grand Canyon and Zion National Park.**

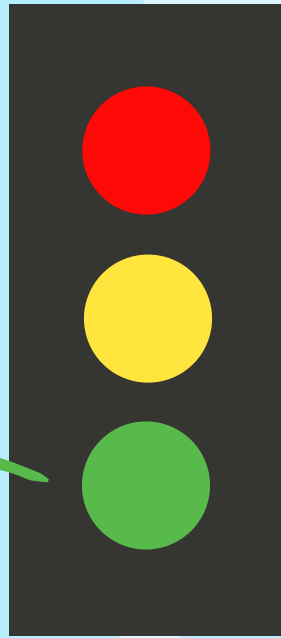

CARING, ATTENTIVE TEACHERS & STAFF

Our summer team have been selected for their experience in and suitability for working with young people.

Anglo centre managers are responsible for ensuring the smooth-running of the programme and most have had many years of experience on summer courses. Quite a few of our teaching staff have worked with us for several summers as well, and have been involved in developing the syllabus by contributing ideas they have tried and tested at centre.

We are also proud that many of our activity team are returners and that some move into management positions, using their experience to make the programme better and safer each year.
